

Introducing the Contour Flex +, a trolley meticulously crafted with larger loads in mind. Its contoured shape, featuring tapered ends, represents a significant leap in trolley design and manoeuvrability. The compact end facilitates movement in confined spaces and reduces the risk of hand trapping.

For added versatility, the Contour Flex + features a removable Contour Stair Stretcher top. This lightweight and foldable addition is equipped with our multidirectional tri-wheel configuration, making it the ideal solution for navigating flights of stairs with ease.
