

Introducing the Multilevel XL300, meticulously crafted to ensure the safe and dignified removal of larger bodies. This trolley has been purposefully designed with fold-down locking sides, significantly expanding the surface area to securely contain body mass during transportation.

What sets the XL300 apart is its innovative "easy-out" option, a feature that eliminates the need for lifting when exiting your vehicle, prioritising both efficiency and operator well-being. Furthermore, the XL300 boasts a "roll-in, roll-out" system, which enables it to fit into compact lifts in an upended position without imposing any weight on the operator. It's a trolley that combines safety, efficiency, and convenience to meet the unique requirements of larger body removals.

Specification

Trolley

Length - 76" / 193cm

Loading Wheel Width - 23" / 58cm
