

Information

The Contour Flex + Bariatric trolley has been designed with larger loads in mind. The contoured shape with its tapered ends is a big step forward in trolley design and manoeuvrability. The smaller end enables movement in tight places and helps prevent hand trapping. The removable Contour Stair Stretcher top is lightweight, foldable and is fitted with our multidirectional tri-wheel configuration which is perfect when there are flights of stairs to contend with.

Specifications

Length	76" / 193cm	Min Height (bed)	13" / 33cm
