

Folding Embalming Table with Folding Foot Pedal

Information

The lift assist Folding Mortuary Embalming Table has a unique lifting system allowing the table to be raised or lowered to various height positions at either end with the push of a foot pedal. The specially designed struts give assistance when raising the table with a maximum load of 280kg. When not in use the table simply folds up for storage and is finished in high quality Stainless Steel with braked castors on each corner.
