

Information

Our front and rear leg design has allowed us to incorporate more features including the option of an independent rear leg system which holds the weight until the trolley is further into the vehicle.

The wheelbase has been lengthened with a wider rear track to increase stability of the trolley, available with either 2 fixed wheels or multidirectional wheels makes this popular model even more versatile.

Specifications

Length	76" / 193cm	Min Height (bed)	10.5" / 27cm
